

July 1st, 2019

Dear **MasterRock**,

Manatee County's recycling team would like to thank you for your participation in the 2018 Recovered Materials Survey conducted earlier this year. We know your time is valuable and sincerely appreciate your efforts and dedication to recycling. It is because of your assistance that Manatee County could achieved a 63% recycling rate for 2018! This was a 5% increase from the prior year.

Your ongoing partnership with Manatee County will continue to help us reach the State-set recycling goal of 75% by 2020. We look forward to further communications regarding your services in order to include them in our Education & Outreach Program where we direct customers to recycling services offered by local businesses. We will be updating contact information, materials accepted, and any special preparations needed for collection. As we share the information with our customers, we hope to help promote your business while increasing recycling participation.

Manatee County again thanks you for your continued recycling efforts. If you have any questions, please contact Christopher Jordan at 941-748-5543, Ext 8049 (christopher.jordan@mymanatee.org) or Mary DeJesus at 941-748-5543, Ext 8048 (mary.dejesus@mymanatee.org).

Sincerely,

Christopher Jordan
Recycling & Special Waste Collections Supervisor
